

科目ナンバー	ELP-3-079-e			科目名	英米地域研究I		
教員名	ウェイン・ベントソ			開講年度学期	2020年度 前期	単位数	2
概要	This class focuses on the origin and development of English as a language, following the progression of English through three distinct stages to become the language that is used today. Then we will trace the historical events that led to English becoming a global language and finally investigate the role of inner, outer and expanding circle countries.						
到達目標	The students will gain a good general understanding of the history of English, its origins and how it developed into the language it is today. They will also gain insight into the development of English as a world or global language and investigate how English is used throughout the world today.						
「共愛12の力」との対応							
識見		自律する力		コミュニケーション力		問題に対応する力	
共生のための知識		自己を理解する力		伝え合う力		分析し、思考する力	
共生のための態度		自己を抑制する力	0	協働する力		構想し、実行する力	
グローバル・マインド	0	主体性	0	関係を構築する力		実践的スキル	
教授法及び課題のフィードバック方法	「授業は英語で行う」The class will have a research-report format. The students will research and make presentations on the main topics of each lesson at the teacher's guidance. Then the teacher will provide commentary and supplementary information.						
アクティブラーニング			サービスラーニング			課題解決型学修	○
受講条件 前提科目	TOEIC 530 or better is required for this class.						
アセスメントポリシー及び評価方法	Reports and Reflection=50%. Presentations=50% (Attendance and lateness policy applies. Missing more than 5 classes will result in automatic failure.)						
教材	The History of the English Language by Bright Viney, Published by Oxford University Press (ISBN 9780194233972)						
参考図書	A list will be provided in class.						
内容・スケジュール							
1週目

授業外学修内容	Students will read the first chapter of the textbook and write out a summary to be handed in at the next class. Some students will prepare presentations for the next class.					時間数	2
2週目							
授業学修内容	Students will make short presentations on Chapter 1 of the textbook thoroughly reporting on the content of the chapter as well as providing other pertinent information they have garnered through their research. The teacher will review the main topics of the lesson and provide commentary.						
授業外学修内容	Students will read the next chapter of the textbook and write out a summary to be handed in at the next class. Some students will prepare presentations for the next class.					時間数	2

3週目			
授業学修内容	Students will make short presentations on Chapter 2 of the textbook thoroughly reporting on the content of the chapter as well as providing other pertinent information they have garnered through their research. The teacher will review the main topics of the lesson and provide commentary.		
授業外学修内容	Students will read the next chapter of the textbook and write out a summary to be handed in at the next class. Some students will prepare presentations for the next class.	時間数	2
4週目			
授業学修内容	Students will make short presentations on Chapter 3 of the textbook thoroughly reporting on the content of the chapter as well as providing other pertinent information they have garnered through their research. The teacher will review the main topics of the lesson and provide commentary.		
授業外学修内容	Students will read the next chapter of the textbook and write out a summary to be handed in at the next class. Some students will prepare presentations for the next class.	時間数	2
5週目			
授業学修内容	Students will make continue short presentations on Chapter 3 of the textbook thoroughly reporting on the content of the chapter as well as providing other pertinent information they have garnered through their research. The teacher will review the main topics of the lesson and provide commentary.		
授業外学修内容	Students will read the next chapter of the textbook and write out a summary to be handed in at the next class. Some students will prepare presentations for the next class.	時間数	2
6週目			
授業学修内容	Students will make short presentations on Chapter 4 of the textbook thoroughly reporting on the content of the chapter as well as providing other pertinent information they have garnered through their research. The teacher will review the main topics of the lesson and provide commentary.		
授業外学修内容	Students will read the next chapter of the textbook and write out a summary to be handed in at the next class. Some students will prepare presentations for the next class.	時間数	2
7週目			
授業学修内容	Students will make short presentations on Chapter 5 of the textbook thoroughly reporting on the content of the chapter as well as providing other pertinent information they have garnered through their research. The teacher will review the main topics of the lesson and provide commentary.		
授業外学修内容	Students will read the next chapter of the textbook and write out a summary to be handed in at the next class. Some students will prepare presentations for the next class.	時間数	2
8週目			
	Students will make continue short presentations on Chapter 5 of the textbook thoroughly reporting on the		

授業学修内容	ng on the content of the chapter as well as providing other pertinent information they have garnered through their research. The teacher will review the main topics of the lesson and provide commentary.		
授業外学修内容	Students will read the next chapter of the textbook and write out a summary to be handed in at the next class. Some students will prepare presentations for the next class.	時間数	2
9週目			
授業学修内容	Students will make short presentations on Chapter 6 of the textbook thoroughly reporting on the content of the chapter as well as providing other pertinent information they have garnered through their research. The teacher will review the main topics of the lesson and provide commentary.		
授業外学修内容	Students will read the next chapter of the textbook and write out a summary to be handed in at the next class. Some students will prepare presentations for the next class.	時間数	2
10週目			
授業学修内容	Students will make short presentations on Chapter 7 of the textbook thoroughly reporting on the content of the chapter as well as providing other pertinent information they have garnered through their research. The teacher will review the main topics of the lesson and provide commentary.		
授業外学修内容	Students will read the next chapter of the textbook and write out a summary to be handed in at the next class. Some students will prepare presentations for the next class.	時間数	2
11週目			
授業学修内容	Students will make short presentations on Chapter 8 of the textbook thoroughly reporting on the content of the chapter as well as providing other pertinent information they have garnered through their research. The teacher will review the main topics of the lesson and provide commentary.		
授業外学修内容	Students will read the next chapter of the textbook and write out a summary to be handed in at the next class. Some students will prepare presentations for the next class.	時間数	2
12週目			
授業学修内容	Students will make short presentations on Chapter 9 of the textbook thoroughly reporting on the content of the chapter as well as providing other pertinent information they have garnered through their research. The teacher will review the main topics of the lesson and provide commentary.		
授業外学修内容	Students will read the next chapter of the textbook and write out a summary to be handed in at the next class. Some students will prepare presentations for the next class.	時間数	2
13週目			
授業学修内容	Students will make short presentations on Chapter 10 of the textbook thoroughly reporting on the content of the chapter as well as providing other pertinent information they have garnered through their research.		

	research. The teacher will review the main topics of the lesson and provide commentary.		
授業外学修内容	Students will read the next chapter of the textbook and write out a summary to be handed in at the next class. Some students will prepare presentations for the next class.	時間数	2
14週目			
授業学修内容	Students will make short presentations on Chapter 11 of the textbook thoroughly reporting on the content of the chapter as well as providing other pertinent information they have garnered through their research. The teacher will review the main topics of the lesson and provide commentary.		
授業外学修内容	Students will read the next chapter of the textbook and write out a summary to be handed in at the next class. Some students will prepare presentations for the next class.	時間数	2
15週目			
授業学修内容	Students will make short presentations on Chapter 12 of the textbook thoroughly reporting on the content of the chapter as well as providing other pertinent information they have garnered through their research. The teacher will review the main topics of the lesson and provide commentary.		
授業外学修内容	Students will review all of their notes and summaries for accuracy and completeness.	時間数	2
上記の授業外学修時間の合計		24	
その他に必要な自習時間		66
