概要	This course will help students build confidence in speaking English. Now is the time to skill up and communicate with your friends and people around the world. We will study real English for real situations (e.g. restaurants, shops, travel, parties, etc.). We can develop our ideas and build relationships by increasing opportunities to use new phrases and vocabulary.						
到達目標	Speaking will be the key to this course but you will also be able to read a variety of texts and try discussing them. At the end of the course you should be able to read a text without too much translating and speak about the things you have read.

教授法及び課題のフィードバック方法	This course should help to build on the phrases and speech patterns you know. Pronunciation practice and grammatical improvements will help your confidence. We will try to set up some scenarios in which you might find yourself speaking English. For example, in the work place, chatting with foreigners, talking with officials, dealing with problems abroad. Also you should be ready to help your classmates to improve. If you think you can help them, please try to motivate each other. Also your ideas on what you want to study will be listened to, I promise! We will follow a course book, but you will need something to keep all extra handouts materials. (Go to a 100yen shop and buy a folder). Also, bring a dictionary.

アセスメントポリシー及び評価方法	You will be evaluated on your speaking abilities, during the course and at the end. Trying hard will also give you higher grades, even if you think you are not so good. Your effort is the most important quality because you will improve. Low effort will look bad on your final grades. Also homework will be checked weekly over the course and scores recorded. We use Google Classroom Apps and my website. Our course is graded: 30% Midterm Test, 40% Final Test, 30% My assessment
